

DoD MOU Application Modernization

Strengthening Partnerships, Empowering Education

In partnership with the DANTES staff, the Defense Support Services Center (DSSC) has embarked on a journey to modernize the DoD Memorandum of Understanding (MOU). The timeline is subject to change; however, users can anticipate the release of a modernized DoD MOU by late spring/early summer 2025.

By providing user-centered solutions, the modernized platform ensures a more efficient and user-friendly experience for educational institutions.

Topic	Benefit	Description
	Simplified Data Management and Accuracy	Educational institutions will be able to easily update and maintain accurate program information, reducing administrative burden.
	Enhanced User Experience	Streamlined workflows and intuitive navigation will improve ease of use, allowing users to find what they need quickly and efficiently.
	Effortless MOU Application Management	Institutions will benefit from a simplified MOU application and renewal process, ensuring a smooth and efficient user journey.
	Compliance with DoD Policies	Educational institutions using the platform will be able to easily adhere to DoD policies and specific requirements through built-in compliance tools.
	Enhanced Data Security and Privacy Compliance	Ensure that all user data, including personal and institutional information, is handled securely and in compliance with government data privacy regulations.
